Guidelines to achieve the target of foodgrains production during rabi season

1352. SHRI SURESH PACHOURI: Will the Minister of AGRICULTURE be pleased to state:

(a) Whether Government have issued guidelines to the agriculture administrators and experts to take a massive effort to achieve the target of 71 million tonnes of foodgrain production during the rabi season;

(b) if so, what are the details of the guidelines issued;

(c) what steps have been taken by the agricultural administrators and experts to achieve this aim;

(d) whether Government have calculated that 28.43 lakh quintals of certified and quality seeds would be required for various crops;

(e) whether any steps have been taken to meet these requirements; and

(f) if so, the extent to which these steps have improved the prospects of fulfilling the rabi targets?

THE MINISTER OF STATE IN THE DEPARTMENT OF AGRICULTURE AND COOPERATION (SHRI YOGENDRA MAKWANA): (a) and (b) The National Conference on Agriculture for Rabi Campaign was organised at New Delhi on 14th and 15th October, 1985. The agriculture administrators and Experts of the States and Union Departments of Agriculture, I.C.A.R. and other concerned organisations participated in this Conference and finalised the following strategy for achieving rabi production target of 71 million tonnes of foodgrains:—

(i) Maximising the productivity in irrigated and rainfed areas.

(ii) Coverage of maximum area under high-yielding varieties.

(iii) Timely sowing, proper placement of seed and fertilizers.

(iv) Use of optimum doses of fertilisers (NPK) depending upon the variety and type of land.

(v) Rectification of micro-nutrient deficiency like, manganese, zinc and sulphur.

(vi) Efficient water management to provide irrigation at critical stages of crop growth through timely release of canal water and supply of electricity and diesal at appropriate time for appropriate duration.

(vii) Adoption of weed control measures at proper time.

(viii) Easy availability of credit to the farmers by full involvement of cooperative and commercial banks.

(c) The above strategy for achieving the rabi production target was endorsed by the agriculture administrators and experts. The representatives of the State Governments also agreed to adopt the same with necessary modifications in the light of local conditions.
